

Stephanie Price*Executive Director**Federation of Medical Regulatory Authorities of Canada (FMRAC)*

Stephanie Price, P.Eng., FEC, CAE, is the Executive Director of the Federation of Medical Regulatory Authorities of Canada (FMRAC) – the organization that brings Canada's physician regulators together to collaborate and improve medical regulation. She assumed the role in February of 2024.

Prior to her work at FMRAC, she worked for Engineers Canada for 15 years, which is the federation for Canada's engineering regulators that also seeks to support regulators, bringing them together to collaborate and improve their work. She held several roles there including interim CEO, Executive Vice President, Regulatory Affairs, and various management roles.

Stephanie also served on CNAR's Board of Directors from March 2019 to June 2024, including in the role of Chair, making her, officially, someone who is really, really interested in bringing regulators together to learn and grow.

Before she was introduced to professional regulation, Stephanie spent 14 years working as an engineer in the cement industry. During this period, her work included plant design, project management and construction of cement plants, as well as technical support and training for plant operations.

Stephanie is a graduate of Queen's University with a bachelor of applied science in mechanical engineering. She is a registered engineer with Professional Engineers Ontario and is also a Certified Association Executive.
